

# Therapy Services for Home Health Patients

Find patients near you with the click of a button.

We provide our therapists with resources to be successful AND maintain work-life balance:

- **Flexibility:** make your own schedule, work in the area of your preference, do the type of visits you want to do – you can accept as many or as few patients as you want. There is no minimum requirement!
- **Independence:** be your own boss, earn above-average compensation, and write off your expenses!
- **Administrative Support:** our staff are here to help you with reporting, communicating, scheduling, and coordinating patient care so that you can focus on what's important – treating the patient!
- **Purpose:** join a group that shares your passion for helping people.

If you are interested in a job where you can fulfill your passion alongside an equally passionate team, then we are what you're looking for. Please let us know if you are interested in working with us or talking further about your options.
